DEVELOPMENTAL BRAIN RESEARCH

Author Index

Andersen, D.L., Tannenberg, A.E.G., Burke, C.J. and Dodd, P.R.
Developmental rearrangements of cortical glutamate-NMDA receptor binding sites in late human gestation (88) 178
Andreopoulos, S., Li, P.P. and Warsh, J.J.
Developmental expression of $G\alpha_o$ and $G\alpha_s$ isoforms in PC12 cells: relationship to neurite outgrowth (88) 30

Barnes, G.A., see Slotkin, T.A. (88) 17
Barrington, J., see O'Dowd, B.S. (88) 220
Beattie, C.E., Kolva, B. and Siegel, R.E.
$GABA_A$ receptor subunit mRNA expression in the weaver cerebellum: modulation by cell–cell interactions (88) 171
Berman, N.E.J., see Grant, S. (88) 132
Beyreuther, K., see Clarris, H.J. (88) 87
Bornstein, M.B., see Roth, G.A. (88) 102
Braun, N., Brendel, P. and Zimmermann, H.
Distribution of 5′-nucleotidase in the developing mouse retina (88) 79
Brendel, P., see Braun, N. (88) 79
Brunjes, P.C., see Cummings, D.M. (88) 148
Burke, C.J., see Andersen, D.L. (88) 178

Cañete Soler, R., Gui, Y.-H., Linask, K.K. and Muschel, R.J.
MMP-9 (gelatinase B) mRNA is expressed during mouse neurogenesis and may be associated with vascularization (88) 37
Catterall, W.A., see Wood, M.R. (88) 194
Clarris, H.J., Key, B., Beyreuther, K., Masters, C.L. and Small, D.H.
Expression of the amyloid protein precursor of Alzheimer's disease in the developing rat olfactory system (88) 87
Collin, J.-P., see Grechez-Cassiau, A. (88) 204
Cummings, D.M. and Brunjes, P.C.
Migrating luteinizing hormone-releasing hormone (LHRH) neurons and processes are associated with a substrate that expresses S100 (88) 148

De Jongh, K.S., see Wood, M.R. (88) 194
Deyst, K.A. and Toole, B.P.
Production of hyaluronan-dependent pericellular matrix by embryonic rat glial cells (88) 122
Dodd, P.R., see Andersen, D.L. (88) 178
Dow-Edwards, D.L., see Frick, G.S. (88) 158

Elshourbagy, N.A., see Lysko, P.G. (88) 96

Frick, G.S. and Dow-Edwards, D.L.
The effects of cocaine on cerebral metabolic function in periweanling rats: the roles of serotonergic and dopaminergic uptake blockade (88) 158
Fritschy, J.-M., see Gao, B. (88) 1

Gao, B. and Fritschy, J.-M.
Cerebellar granule cells in vitro recapitulate the in vivo pattern of $GABA_A$-receptor subunit expression (88) 1
Grant, S. and Berman, N.E.J.
Late loss of connections during callosal development in Siamese cats (88) 132
Grechez-Cassiau, A., Grève, P., Guerlotté, J., Collin, J.-P. and Voisin, P.
Hydroxyindole-*O*-methyltransferase gene expression in the pineal gland of chicken embryo: development of messenger RNA levels and regulation by serum (88) 204
Greenfield, S.A., see Holmes, C. (88) 212
Grève, P., see Grechez-Cassiau, A. (88) 204
Guerlotté, J., see Grechez-Cassiau, A. (88) 204
Gui, Y.-H., see Cañete Soler, R. (88) 37

Hamill, K., see Roth, G.A. (88) 102
He, H.-J., see Sircar, R. (88) 224
Hertz, E., see O'Dowd, B.S. (88) 220
Hertz, L., see O'Dowd, B.S. (88) 220
Hoebel, B.G., see Jones, A.P. (88) 127
Holmes, C., Jones, S.A. and Greenfield, S.A.
The influence of target and non-target brain regions on the development of mid-brain dopaminergic neurons in organotypic slice culture (88) 212

Jones, A.P., Pothos, E.N., Rada, P., Olster, D.H. and Hoebel, B.G.
Maternal hormonal manipulations in rats cause obesity and increase medial hypothalamic norepinephrine release in male offspring (88) 127
Jones, S.A., see Holmes, C. (88) 212

Key, B., see Clarris, H.J. (88) 87
Kolva, B., see Beattie, C.E. (88) 171

Li, C.-S., see Sircar, R. (88) 224
Li, P.P., see Andreopoulos, S. (88) 30
Linask, K.K., see Cañete Soler, R. (88) 37
Lorber, B.A., see Slotkin, T.A. (88) 17
Lysko, P.G., Elshourbagy, N.A., Pullen, M. and Nambi, P.
Developmental expression of endothelin receptors in cerebellar neurons differentiating in culture (88) 96

Maragos, W.F. and Silverstein, F.S.
The mitochondrial inhibitor malonate enhances NMDA toxicity in the neonatal rat striatum (88) 117
Masters, C.L., see Clarris, H.J. (88) 87
McCook, E.C., see Slotkin, T.A. (88) 17
Muschel, R.J., see Cañete Soler, R. (88) 37

Nambi, P., see Lysko, P.G. (88) 96
Ng, K.T., see O'Dowd, B.S. (88) 220
Nordlander, R.H., see Somasekhar, T. (88) 53
Novakovic, S.D., see Shrager, P. (88) 68

O'Dowd, B.S., Barrington, J., Ng, K.T., Hertz, E. and Hertz, L.
Glycogenolytic response of primary chick and mouse cultures of astrocytes to noradrenaline across development (88) 220
Olster, D.H., see Jones, A.P. (88) 127

Pfenninger, K.H., see Wood, M.R. (88) 194
Pothos, E.N., see Jones, A.P. (88) 127
Pullen, M., see Lysko, P.G. (88) 96

Rada, P., see Jones, A.P. (88) 127
Roth, G.A., Spada, V., Hamill, K. and Bornstein, M.B.
Insulin-like growth factor I increases myelination and inhibits demyelination in cultured organotypic nerve tissue (88) 102

Schwartz, J.P., see Taniwaki, T. (88) 109
Seidler, F.J., see Slotkin, T.A. (88) 17
Shrager, P. and Novakovic, S.D.
Control of myelination, axonal growth, and synapse formation in spinal cord explants by ion channels and electrical activity (88) 68
Siegel, R.E., see Beattie, C.E. (88) 171
Silverstein, F.S., see Maragos, W.F. (88) 117
Sircar, R., He, H.-J. and Li, C.-S.
Chronic postnatal phencyclidine treatment on [^{3}H](+)pentazocine binding in juvenile rat brain (88) 224
Slotkin, T.A., Lorber, B.A., McCook, E.C., Barnes, G.A. and Seidler, F.J.
Neural input and the development of adrenergic intracellular signaling: neonatal denervation evokes neither receptor upregulation

nor persistent supersensitivity of adenylate cyclase (88) 17
Small, D.H., see Clarris, H.J. (88) 87
Somasekhar, T. and Nordlander, R.H.
Differential distributions of HNK-1 and tenascin immunoreactivity during innervation of myotomal muscle in *Xenopus* (88) 53
Spada, V., see Roth, G.A. (88) 102

Taniwaki, T. and Schwartz, J.P.
Somatostatin enhances neurofilament expression and neurite outgrowth in cultured rat cerebellar granule cells (88) 109
Tannenberg, A.E.G., see Andersen, D.L. (88) 178
Toole, B.P., see Deyst, K.A. (88) 122
Tyč, F. and Vrbová, G.
Stabilisation of neuromuscular junctions by leupeptin increases motor unit size in partially denervated rat muscles (88) 186

Voisin, P., see Grechez-Cassiau, A. (88) 204
Vrbová, G., see Tyč, F. (88) 186

Warsh, J.J., see Andreopoulos, S. (88) 30
Wood, M.R., De Jongh, K.S., Catterall, W.A. and Pfenninger, K.H.
Na^+ channel changes in the growth cone and developing nerve terminal (88) 194

Zimmermann, H., see Braun, N. (88) 79
